International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 1 Wednesday January 28th

- 13:00 • Welcome coffee, badge distribution and program handout
- 14:00 • Opening Speech - Introduction by scientific committee and political figures
- 14:15 • Overview of national French biotherapy advancements
Dr Anne JOUVENCEAU, Agence de l'innovation en Santé - SGPI
- 14:30 • **OPENING KEYNOTE**
From encoded combinatorial libraries to targeted therapeutics
Pr Dario NERI, ETH Zürich, Switzerland
- 15:30 • Coffee break

Biotherapies and Immunology

Chair : Dr Pierre Martineau, Institut de Recherche en Cancérologie de Montpellier

- 16:00 • Next-generation phagocytosis-guided myeloid cell immunotherapy for cancer treatment
Dr Jean-Luc PERFETTINI, Gustave Roussy, Paris

First-in-class anti-TRPV6 antibody as a new therapeutic agent in cancer
Dr Sylvain YON, MABQI, Montpellier

Intracellular antibodies as novel anti-cancer biotherapeutics ?
Dr Nicolas BERY, Inserm Centre de Recherches en Cancérologie de Toulouse
- 17:20 • Company 5' pitch

Flash poster presentation
- 17:35 • Poster session & Networking
- 18:30 • Closing

International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 2 Thursday January 29th

Biotherapies and Regenerative Medicine

Chair : Pr Christian JORGENSEN, Institute for Regenerative Medicine and Biotherapy, Montpellier

- 09:00 ● Generation of iPSC-derived cells for articular cartilage regeneration
Dr Farida Djouad, Institute for Regenerative Medicine and Biotherapy, Montpellier
- Preclinical and clinical development of CD34+ cell-based therapies for ischemic diseases
Dr Ibon GARITAONANDIA, Cell Prothera, Mulhouse
- Results of The EXCELLENT trial, CD34+ cells in post-AMI
Pr Jérôme RONCALLI, Metabolic and Cardiovascular Research Institute, Toulouse

10:40 ● Coffee break

Biotherapies and Organoids

Chair : Pr Louis CASTELLA, Ageing and rejuvenation research center RESTORE, Toulouse

- 11:00 ● Cell based therapy against liver diseases: from basic innovation to proof of concept in human organ
Pr Ludovic VALLIER, Berlin Institute of Health at Charité, Germany
- PANCprofiler: integrating single-cell and preclinical data to uncover therapeutic resistance programs in pancreatic cancer
Dr Nelson DUSETTI, Centre de Recherche en Cancérologie de Marseille
- Leveraging organoids to advance new cancer therapies
Dr Emilie DECAUP, Urosphere, Toulouse
- Organoid boost to fight antimicrobial resistance
Dr Nathalie VERGNOLLE, Institut de Recherche en Santé Digestive, Toulouse

12:40 ● Lunch

International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 2 Thursday January 29th

Biotherapy and Synthetic Biology

Chair : *Dr Fayza DABOUSSI, Toulouse Industrial Biotechnology for Health (TIBH)*

14:00 ● *Dr Fayza DABOUSSI, Toulouse Industrial Biotechnology for Health (TIBH)*

Programming bacteria as smart therapeutics

Dr Jérôme BONNET, Centre de Biologie Structurale, Montpellier

Harnessing Nature's Factories: Leveraging Synthetic Biology and Fermentation for Pharmaceuticals

Dr Gwenaél SERVANT, Abolis Biotechnologies, Paris

Dr Julien VALTON, Celsectis, Paris

OBBI Integrator: An Academic Hub Driving Innovation in Extracellular Vesicle and Organoid Bioproduction

Dr Danièle NOEL, Institute for Regenerative Medicine and Biotherapy, Montpellier

16:45 ● **Company 5' pitch**

Flash poster presentation

16:15 ● **Coffee break**

16:45 ● **KEYNOTE**

20 years of biotherapies for cardiac regeneration: what next?

Pr Philippe MENASCHE, Paris-Cité University

International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 2 Thursday January 29th

Biotherapy in action - Lessons, and Future Directions in Biotherapy Innovation

Chairs : Dr Fayza DABOUSSI & Pr Louis CASTEILLA

- 17:20 **Panel discussion**
Dr Anne JOUVENCEAU, Agence de l'innovation en Santé – SGPI
Dr Manel JUAN, Hospital Clínic de Barcelona, Spain
Pr Philippe MENASCHE, Paris-Cité University
Dr David MORROW, EATRIS, Netherlands
Dr Danièle NOEL, Institute for Regenerative Medicine and Biotherapy, Montpellier
Pr Valérie PLANAT, Ageing and rejuvenation research center RESTORE, Toulouse
Dr Gwenaél SERVANT, Abolis Biotechnologies, Paris
Dr Julien VALTON, Celsectis, Paris
- 18:20 **Company 5' pitch**
Flash poster presentation
- 18:45 **Networking Evening / Gala**
- 23:00 **Closing**

International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 3 Friday January 30th

- 09:00 ● **KEYNOTE**
Hinges and fuzzy logic : New tools for achieving CAR/TCR immunotherapeutic precision
Dr Naomi TAYLOR, Center for Cancer Research National Cancer Institute, USA

Regulatory challenges and biotherapy access strategies

Chair : Pr John De Vos, Institute for Regenerative Medicine and Biotherapy, Montpellier

- 09:35 ● From the market to patients: accelerating responsible access to biotherapies
Dr Emmanuelle RIAL-SEBBAG, Centre d'Epidémiologie et de Recherche en santé des POPulations, Toulouse
- Pr Pierre DUBOIS, Toulouse School of Economics*
- Impact of regulations on the development of an innovative biotherapy drug for clinical application
Fabian GROSS, Centre d'Investigation Clinique Biothérapies du CHU Toulouse
- From Innovation to Patient Access: EATRIS Solutions
Dr David MORROW, EATRIS, Netherlands

- 10:35 ● Coffee break

International Biotherapy Days

January 28-30, 2026

@ Convention center Pierre Baudis, Toulouse

DAY 3 Friday January 30th

Biotherapies 4.0: from DNA to Artificial Intelligence

Chair: Pr Louis CASTEILLA, Ageing and rejuvenation research center RESTORE, Toulouse

- 11:00 ● Applications of digital solutions to advance process development of cell therapies
Dr Moritz VON STOSCH, DATA HOW, Zürich, Switzerland
- Outpacing Viral Evolution: AI for Resilient Biomedical Interventions
Pr David SIMONCINI, Institut de Recherche en Informatique de Toulouse
- Bypassing gene editing in upstream bioproduction optimization with digital twins of cells
Dr Sébastien LEGARÉ, DeepLife
- Pr Cesar ACEVES LARA, Toulouse Biotechnology Institute*
- 12:45 ● **CLOSING KEYNOTE**
"Driving" together CAR-T: The Barcelona model of patient access
Dr Manel JUAN, Hospital Clínic de Barcelona, Spain
- 13:30 ● Closing
